Mainpage Details Device User

- Automatically get heart rate data with graph.
- Setup your Daily Target manually by setting up the target of steps & sleep.
- Detailed graph of activity, which shows the step count history for a week, month & year. Displays the same for sleep monitoring; it shows the hours of total sleep, deep sleep & light sleep.
- Get Alert for Calls, SMS & 3rd party Apps like Facebook, Facebook Messenger, Whatsapp, Wechat, Twitter, Instagram, QQ, Linked In. Also get Alert for the Sedentary reminder.
- Smartphone Camera can be controlled through the ZEB-FIT100 by opening the Camera inside the ZEB-FIT App and using the press button on the ZEB-FIT100 smart.
- You can also set smart alarm in the app. This alarm will function on the ZEB-FIT100 to gently wake you up with vibration alert.
- Anti-lost alert is built-in to the app which alerts the connected smartphone and ZEB-FIT100 if they are away from bluetooth range of each other.
- ZEB-FIT100 smart bracelet will help you to find your Smartphone by using the 'Find Phone' feature.
