QR Code Guide	: 1 U

Product Representation

Charging process

Use a 5V DC power adapter to charge the **ZEB-FIT380CH** smart watch with the charging cable provided inside the package. Kindly ensure to charge the device fully before using it for the first time. The smart watch powers ON once plugged to the charger or it can be manually powered ON by pressing the button for few seconds.

Power-on

Press and hold the power button to ON/OFF the smart watch.

Usage Instructions

1.Installing app

Download the app by scanning the above QR code or search for the app **SZOS** in the Google play store / iOS app store. Once installed, follow the steps directed by the app interface, to provide necessary permissions.

Note: Your device must support Android v5.0 / iOS v10.0 (or above)* and BT version 4.0 (or above).

2. Connecting ZEB-FIT380CH smart watch to the SZOS app:

- a. Click on 'DEVICES' option at bottom of navigation bar in the **SZOS** app home page.
- b. In the Devices page, you can choose 'Scan' option. Now the camera will open, using which you can scan the QR code provided in the watch UI.
- c. Open the menu by swiping Left->Right in the watch main page. Select the QR code option from the Quick access menu and you can notice 'Scan to connect' QR code on the watch screen.
- d. Scan this QR code with the **SZOS** app interface to proceed.
- e. Once scanned, the watch will now get paired with the **SZOS** app automatically.

3. Call function (via BT) - connection and usage:

- a. Android smartphones display a BT pairing request, for pairing the secondary BT of the smart watch. You can allow this connection request to start using the call function (via BT).
- b. For iOS smart phones, once the app connection is successful, you can enter the mobile BT settings and pair with the '**ZEBFIT380CH_*****' watch secondary BT. This connection enables call function via BT.

4. Display and Interface of ZEB-FIT380CH Smart Watch:

Once the device is powered ON and connect to the smart phone, the following are the display interface images which can be seen in **ZEB-FIT380CH** smart watch.

5. Activating the Voice Assistant:

Once the watch BT connection is done, you can enter the 'Voice assistant' option given in the watch interface to wake up your smartphone voice assistant.

6. Disconnecting Process:

Kindly ensure the watch is disconnected from your smart phone BT menu, to completely disconnect the watch and the smart phone.

***Note:** Do not use the smart watch in the water with temperatures above 42°C. For any repairs please take the smart watch to the authorised service centre.*
