ZEBRONICS

Hair Straightener

ZEB HS100

User Manual

www.zebronics.com

Dear Customer,
Please refer to the user manual of **ZEB-HS100** - Hair Straightener for using the product optimally.

Warning:

•   Keep this appliance out of the reach of children.

•   Do not use the hair straightener near bathtubs, basins, sinks where it is prone to get in contact with water or with wet hands to avoid electric shock.

•   Always switch off and unplug the device immediately after use. Do not leave it unattended when switched on.

•   The plates get extremely hot (nearly 210°C). Avoid touching the plates or any hot parts to prevent burns. Allow the straightener to cool completely before storing.

•   Do not place the hair straightener on or near flammable materials (towels, curtains, paper) when switched on or still hot.

•   Do not operate the appliance if the cord or plug is damaged, the unit has been dropped, or it is malfunctioning. Stop use immediately under these conditions.

•   Clean the plates with a soft, damp cloth only when the device is completely cool.

•   Do not use chemicals or immerse the hair straightener in water.

•   Keep away from children and do not use near water.

- Avoid wrapping the cord around the appliance to prevent damage.
- Do not attempt to clean or repair the appliance yourself. Please take it to the Zebronics Service Centers.

Product Description :

Smooth Ceramic
Coated Plates

Power Switch

Plate Lock
System

Power Cord

Hanging Loop

Usage Instructions

To use the product safely and effectively, follow these step-by-step instructions:

1. Preparation:

- Ensure your hair is clean, completely dry, and free of tangles before starting.
- Brush your hair thoroughly.
- Divide your hair into sections depending on thickness.

2. Power On and Heating:

- Plug the straightener into an electric socket.
- Switch the straightener on using the ON/OFF switch. The power indicator light will illuminate, and the device will begin heating.
- Allow the straightener to heat up.

3. Straightening Process:

- Take one section of hair and place it between the straightening plates.
- Press the handle and close the plates firmly and slowly glide the straightener down the hair in a smooth motion. Please do not hold for more than 2 to 5 seconds per section.
- Repeat on all sections until the desired region of the hair is straightened.

4. After Use:

- Switch off the appliance and unplug it from the socket.
- Allow the straightener to cool down completely before storing.
- Use the locking mechanism for safe storage.
