ZEBRONICS

Smart LED Projector

PixaPlay®68

User Manual

www.zebronics.com

Dear Customer,

Thank you for purchasing the **ZEB-Pixaplay 68** Smart LED Projector. Please read the user manual carefully before usage& save it for future reference.

Note:

- *To provide a stable power supply, kindly use the cable provided with the product and connect to a (AC 100-240V, 50/60 Hz) power source.*

- *Avoid the self-disassembly of the product as it results in the failure of Warranty.*

- *Avoid looking directly at the projector lens while it is active.*

- *Make sure that the projector's air vents are not blocked while in use. The device must be kept in a well ventilated surrounding for proper functioning.*

- *It is recommended to power OFF the projector after a continuous usage of 6 hours.*

- *Place the projector away from water or other liquids. Avoid water accumulation and ensure good ventilation.*

- *In case of enquiry regarding the projector, email us at enquiry@zebronics.com or contact us at 044 40000004*

- Internal Storage
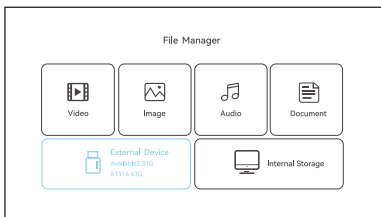

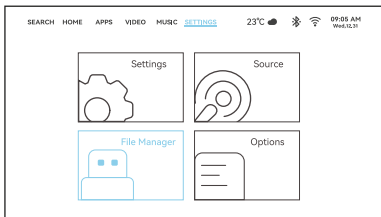

Bluetooth Settings

- Go to settings click Bluetooth
- Turn the Bluetooth Connection on and search for nearby Bluetooth devices
- Choose correct Bluetooth device to connect

In the apps Speaker Mode is available by entering into speaker mode select Bluetooth speaker on your source device and then projector will act as a Bluetooth speaker

Projection Settings

1. Auto Focus

By default, the auto focus mode of the projector is enabled, allowing it to quickly detect and adjust to the optimal clarity of the screen when it is turned on.
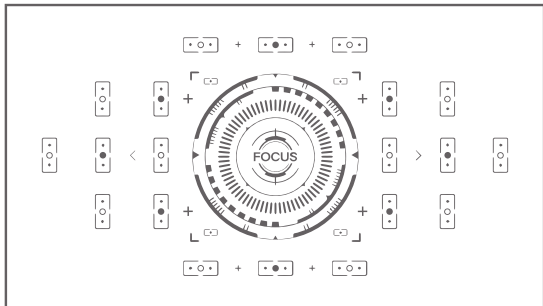

2. Electronic Focus

Press the F+ button and F- button in the remote to adjust the picture clarity

3. Auto Keystone

Auto keystone correction feature automatically adjusts the image to ensure it appears rectangular, even if the projector is angled or not positioned directly in front of the screen. This is particularly helpful when the projector is set up on a table or mounted at an angle
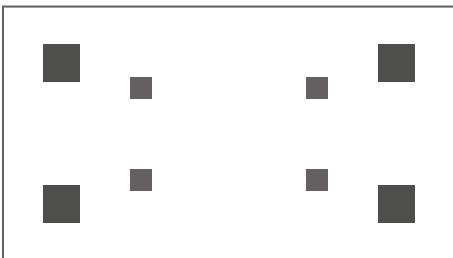

4. Miracast connection

First Step

Choose the corresponding miracast methods

Second Step

Operate according to the text prompts
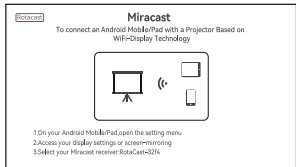

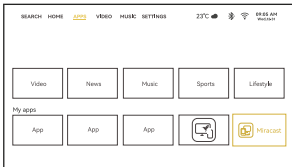

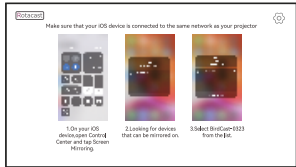

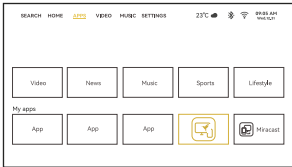

5. Digital Zoom

- Go to Settings - Projection Settings
- Choose Digital Zoom
- Press Down button V to Zoom out (100&-70%) and Up button A to Zoom in (70%-100%)
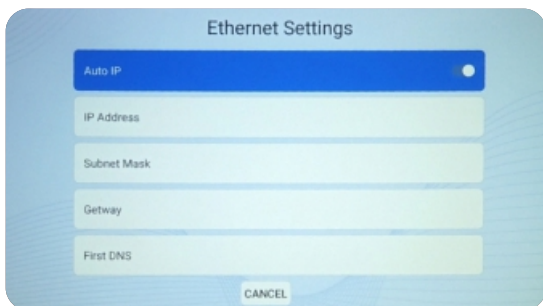

Wi-Fi Connections

1. Wi-Fi Connection:

- Go to Homepage > Settings - WIFI Setting
- Turn the WIFI ON and search the WIFI list by "Add WIFI"
- Select your WIFI then enter password to connect

2. Wired Connection:

- Go to Homepage -> Setup > Network > Wired Setting > Ethernet Setting > Auto IP (On)
- Insert the wired cable into the LAN interface of the projector to use the wired network

3. Hotspot Connection:

- Go to Homepage > Settings > Network > Hotspot
