Smart phone mount	: 1U
Remote shutter controller	: 1U

Remote shutter controller

How to Install The Tripod

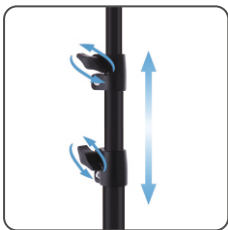

1. Unscrew the lowermost knob of the tripod counter-clockwise.

2. Pull the three legs of the tripod outward and move up and down.

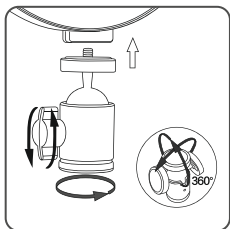

3. After adjusting the three legs of the tripod to a stable angle, turn the knob clockwise.

4. Extend the tripod stick from bottom to top by unlocking the Knob, tighten the lock catch to fix the tripod stick at any desired height.

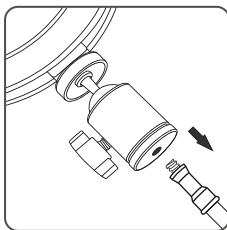

How to Install The Ring Light

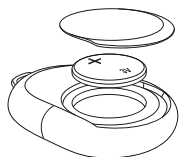

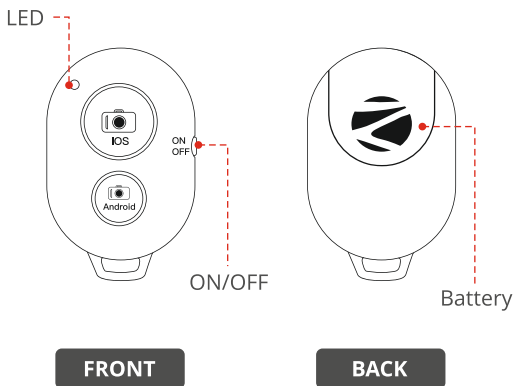

1. Insert the Tripod Ball Head into the screw hole of the ring light, screw the bottom of the Tripod Ball Head clockwise.

Note: Rotate the Tripod Ball Head, and the joint ball design allows the ring light to be adjusted to 360°. Then tighten the Tripod Ball Head.

2. Assemble the ring light with the Tripod Ball Head on the saddle plate through the screw.

How to Use The Remote Shutter Control

Battery Placement

STEP 1 : Turn on the side switch and the blue indicator light flashes.

STEP 2 : Turn on the phone BT and enter the BT setting interface.

STEP 3 : Find "ZEB-RL10" and click "ZEB-RL10". This process may take up to 3 seconds.

STEP 4 : Open the Camera APP on the phone and press the Button of the remote control to take photos.

How to Adjust The Brightness

1. Connect the USB plug to power supply (recommended 5VDC, 3A adapter)

USB Adapter

Portable Bank

2. Press the power key to turn on or off the Ring Light.

3. To adjust the brightness, press the + or - button.

Lighting Controller
