General Instructions
BT Mode
Switch the speaker to BT mode, Scan for nearby BT devices in your source device. Tap on **"ZEB-TRUMP 2"** to connect.

USB/SD Mode:
Insert the USB/SD flash drive to the speaker. The speaker will detect the USB/SD and the audio files from flash drive will be played automatically.
(This mode selectable on the speaker or remote control unless a USB/SD flash drive is connected).

FM Radio:
Switch the speaker to FM mode. In FM mode, press hold the "Play / Pause" button in the remote to scan for the available FM channels. Once the scanning is done, the scanned channels will begin to play. The next button or previous button in the remote can be used to change the FM channels.

AUX-IN:
The speaker can be connected to an audio source using a RCA to 3.5mm cable. Connect the RCA end of the cable to the speaker and the 3.5mm end to an audio source. The songs from the audio source can be heard through the speaker.

AC-3 Mode:
Users can connect a dedicated 5.1 input to this speaker and use the AC-3 Input mode to experience true 5.1 surround sound, possible inputs involving DVD Player, Computer, TV, etc (Please ensure the input devices are compatible with 5.1 content and 5.1 RCA connector output supported).

Optical Mode :
Use this operating mode to play music from the optical digital input for example from a TV on your Speaker(A). The TV must have an optical digital output.
Use the optical cable to make the connection. Proceed as follows:

• Connect the optical cable to the optical digital output of your TV.

• Then connect the optical cable to the optical digital input of your Speaker.

• Switch the TV set and Speaker on. Set the connected TV to "PCM Stereo" or "Stereo 2.0".

• Start playing on the TV.
• Press the "OPTICAL" button on the remote control to select this mode.
• You can use the volume buttons to adjust the volume to your requirements.
• In this mode, media can only be controlled on your connected device.
