## **General Instructions**

### **BT Connectivity**

Turn ON the speaker, press Mode button to switch to BT Mode. Switch ON BT on your phone or tablet and search for nearby BT devices, Search for the BT name ZEB-EPIC PRO and tap to connect it.

### **USB Mode :**

The speaker automatically switches to USB input mode when a USB flash drive is inserted. The songs from the audio source can be heard through the speaker (this mode isn't selectable on the speaker unless a USB is connected to the speaker). Single Press the ◀◀ to switch to previous audio track and Single Press the ▶▶ button to switch to next audio track.

### **Connecting Audio Inputs:**

Connect the speaker to an audio source using one of the following methods, depending on your setup:

3.5 mm AUX – Use a standard stereo mini-jack cable.

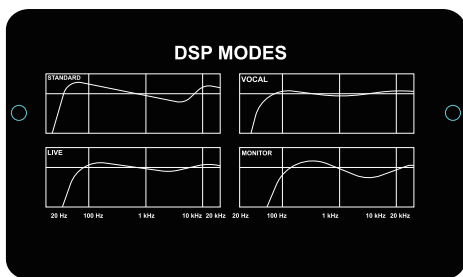

2-Channel RCA – Connect via left/right RCA cables. (Cable Not Included)

XLR – Use a balanced XLR cable (Cable Not Included)

Choose the connection type that matches your source equipment, plug it into the speaker's corresponding input, and adjust volume levels as needed.

### **DSP Preset Modes :**

- When we turn on the Speaker, the default DSP Mode will be Standard.
- To change it to different DSP Modes just Single press the Preset Button where the LED Indicator denotes which Preset Mode is currently active.
- There are total of 4 DSP preset Modes that are available
  1. Standard
  2. Vocal Boost
  3. Live
  4. Floor Monitor/Wall

### **Power Source:**

This speaker is designed to operate in AC 220-240V 50/60Hz.
