

Soundbar MJUKE BAR H**9600**

User Manual

www.zebronics.com

Important Safety Instruction

Thank you for purchasing the **ZEB-JUKE BAR 9600** Soundbar. Please read this user
manual carefully and keep for future
reference.

Warning

TO REDUCE THE RISK OF ELECTRIC SHOCK DO NOT REMOVE COVER (OR BACK)

Caution:

- To reduce the risk of electric shock, do not dismantle the product and do not expose the unit to rain or moisture. No user-serviceable parts inside.
- Refer servicing to qualified personnel only.

The lightning flash within an equilateral triangle is intended to alert you to the presence of uninsulated dangerous voltage within the product's enclosure that may be of sufficient magnitude to constitute an electric shock to a person or persons.

Important! This symbol alerts you to read and observe important warnings and instructions on the unit or in this manual.

Notice:

1. To prevent possible hearing damage, do not listen at high volume levels for long time

periods or a sudden high volume level.

2. Never use the device unsupervised! Switch off the device whenever you are not using it, even if not using it only for a short while.

3. The device is not intended to be operated by

means of an external timer or separate remote control system.

4. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

- 5. Before operating this system, check the voltage of this system to see if it is identical to the voltage of your local power supply.
- 6. The unit should not be impeded by covering the ventilation opening with items such as newspaper, table-cloths, curtains etc. Make sure that there are at least 20 cm of space above and at least 5 cm of space on each side of the unit.
- 7. The unit must not be exposed to dripping or splashing liquid, no objects filled with liquids such as vases, should be placed on the unit.
- 8. To prevent fire or shock hazard, do not expose this equipment to direct heat, rain, moisture or dust.
- 9. Do not position this unit near any water sources e.g. taps, bathtubs, washing machines or swimming pools. Ensure that you place the unit on a dry, stable surface.
- 10. Do not place this soundbar close to a strong magnetic field.
- 11. Do not place the soundbar on a amplifier or receiver.
- 12. Do not place this soundbar in a damp area as the moisture will affect the life of electric components.
- 13. Do not attempt to clean the soundbar with chemical solvents as this might damage the finish. Wipe with a clean, dry or slightly damp cloth.
- 14. When removing the power plug from the

power socket, always pull directly on the plug, never pull on the cord.

- 15. Depending on the electromagnetic waves used by a television broadcast, if a TV is turned on near this unit while it is also on, lines might appear on the LED TV. Neither this unit nor the TV is malfunctioning. If you see such lines, keep this unit well away from the TV set.
- 16. The mains plug is used to disconnect the device, the disconnected device should remain readily operable.

Preparation for Use

Unpacking and Set Up

- Remove the Sound bar from the carton and remove all packing material from the Sound bar. Save the packing material, if possible, in case the Sound bar ever needs to be serviced or transported.
- The original carton and packing material is the only safe way to pack your Sound bar to protect it from damage in transit.
- Remove any descriptive labels or stickers on the front or top of the cabinet. Do not remove any labels or stickers from the back or bottom of the cabinet.
- Place your Sound bar on a level surface such as a table, desk or shelf, convenient to an AC power socket, out of direct sunlight, and away from sources of excess heat, dirt, dust, moisture, humidity, or vibration.
- Unwind the Line cord connecting the AC adapter and extend it to its full length.

Protect Your Furniture

This model is equipped with non-skid rubber 'feet' to prevent the product from moving when you operate the controls. These 'feet' are made from non-migrating rubber material specially formulated to avoid leaving any marks or stains on your furniture. However certain types of oil based furniture

polishes, wood preservatives, or cleaning sprays may cause the rubber 'feet' to soften, and leave marks or a rubber residue on the furniture. To prevent any damage to your furniture we strongly recommend that you purchase small self-adhesive felt pads, available at hardware stores and home improvement center everywhere, and apply these pads to the bottom of the rubber 'feet' before you place the unit.

Important Notes

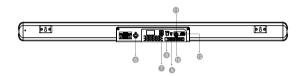

- Safety and operating instruction manual should be retained for future reference.
- Before turning on the power for the first time, make sure the sound bar is plugged to power socket.
- For safety reasons, do not remove any covers or attempt to gain access to the inside of the product. Refer any servicing to qualified personnel.
- Do not attempt to remove any screws, or open the casing of the unit; there are no user serviceable parts inside. Refer all servicing to qualified service personnel.

Power Source:

This soundbar is designed to operate in AC 220-240V 50/60Hz.

Product Representation

Remote Control

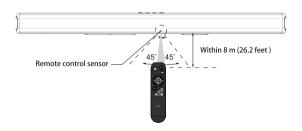

- 1. (b) : Standby mode for power on/off.
- 2. Volume+: Master Volume Increase
- 3. In Pre button: Previous Track (Only work under USB & BT Mode).
- 4. NI : Play/Pause (Only work under USB and BT mode)
 - Press to Mute or unmute on other modes.
- 5. Volume-: Master Volume Decrease.
- 6. EQ : Press this button in a short time to toggle EQ mode from EQ 1, 2, 3 & 4.
- 7. INPUT: Press to select AUX/USB/TV (eARC)/Optical IN/BT input mode.
- 8. PAIR/INFO: On other modes, press and hold button more than 2 seconds for BT device pairing or reconnect last paired BT device; Press button In short time to check signal format on TV(eARC) / Optical mode bases on

device with Dolby decoder.

- 9. Next button: Next track. (Only work under USB & BT mode of smartphone)
- 10. 💮 : Setup, press the button to toggle to adjust increasing/decreasing of Bass & Treble level.
- 11. + : Under setup button to adjust increasing of Bass & Treble level.
- 12. : Under setup button to adjust decreasing of Bass & Treble level.

Operating Range of the Remote Control

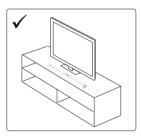

- When the unit is mounted on a wall, point the remote control at the remote control sensor on the bellowed panel. The provided Remote Control allows the unit to be operated from a distance
- Even if the Remote Control is operated within the effective range 26.2 feet (8m), remote control operation may be impossible if there are any obstacles between the unit and the remote control.
- If the Remote Control is operated near other products which generate infrared rays, or if other remote control device using infrared rays are used near the unit, it may operate incorrectly. Conversely, the other products may operate incorrectly.

Positioning the Sound Bar

Place on a flat Surface

Place the sound bar horizontally on a flat surface such as a TV unit or shelves and align it centrally with the TV screen. Allow some space between the speaker and the wall. Don't place inside a cabinet or on a walled shelf. Follow this steps for best sound output and good airflow around the sound bar.

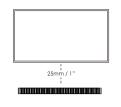

Mount on the wall

WARNING: If you don't feel confident to correctly and securely wall-mount the sound bar, Seek the assistance of an experienced person or professional.

Install the speaker on a vertical, fast, reinforced area of wall. For plaster walls, it is recommended to screw into wall studs for greater security. For optimum performance, allow at least 25mm/1"distance between the sound bar and the TV.

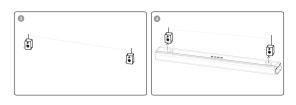

Follow below steps to mount the sound bar on the wall

- 1. Make 2 holes on the wall with distance same as the wall bracket on the soundbar.
- 2. Put the plastic anchors onto the wall and secure the screws to the plastic clip, do not tighten the screws all the way make sure leave some space.
- 3. Attached the 2 EVA pads onto the wall mount bracket. This will make sure that there is enough room between the wall and the soundbar outlet, minimum 15mm.
- 4. Once the screws securely fastened, hang the sound bar over by inserting the screws onto the wall mount bracket.

Basic Operation

- 1. Press the power button on either the remote control or the soundbar to turn on the soundbar.
- 2. Switch on the connected device (such as TV, playback devices, game console etc).
- 3. Press the input button on either the remote control or the soundbar to select your desired input source.

Input Source	Description
TV(eARC) / OPTICAL	Audio from TV (via TV(eARC) / TV(ARC) port or OPTICAL jack)
AUX	Sound from a connected device (via AUX port)
BT	Sound from a BT connected device
USB	Sound from a USB storage device

Powering On/Off

- 1. Plug in the power cord with one side to AC IN on soundbar and the other side to an AC wall outlet (see the following diagram). When you connect the soundbar to the main socket, the unit will be in STANDBY mode, firstly it will display "--"
- 2. Switch on the soundbar by short-pressing power/standby button on soundbar or on remote controller, After 12s, the default input mode will automatically appear on display screen.
- 3. Press and hold the b button on soundbar or on the remote controller for 2 seconds to switch it off, and then disconnect the main plug

from the main socket if you want to switch the unit off completely.

Auto Standby

- 1. The unit will automatically turns to standby mode when no audio input is received for 20 minutes.
- If the TV or the external unit is disconnected, switched it off
- To switch the unit off completely, remove the mains plug from the mains socket.
- Please turn the unit off completely to save energy when not in use.
- 3. The screen will be turned off for around 20 seconds without any operation, when pressing the power buttons on the soundbar or on remote control or the using phone's volume increase or decrease, the display will be waken up again.

Select Modes

1. Press the button repeatedly on the soundbar or press the INPUT button on the remote control to select the BT, AUX, OPTICAL, TV eARC, USB mode. The selected mode will show on the display.

2. Below are input mode names appearing in the soundbar display:

BT - BT Pairing mode RUX - AUX mode

OPTI - Optical mode RRC - TV(ARC) mode

ERRC - TV(eARC) mode USB - USB mode

Note: The port of TV (eARC) are support Video & Audio Audio: maximum supported audio content is Dolby Atmos, Dolby Digital, Dolby Digital Plus, Dolby TrueHD, Dolby Surround.

Under TV (eARC) input souce, if you didn't connect soundbar to your TV, RRE will be displayed on soundbar; If soundbar connected to your TV (ARC) connector, RRE will be displayed on soundbar; If soundbar connected to your TV (eARC) connector, ERRE will be displayed on soundbar.

Playing Audio via BT Connection

Through BT, connect the Soundbar with your BT device (such as an iPad, iPhone, iPod touch, Android phone, or laptop), and then you can listen to the audio files stored on the device through your Soundbar speakers.

- 1. Turn on the soundbar system and shortpress button on the unit or **INPUT** button on the remote control to switch the soundbar system to BT mode and LED display on the soundbar will flicker.
- 2. On the BT device, switch on BT, search for

and select ZEB-JUKE BAR 9600 on your BT list to start connection.

- 3. If successfully connected, LED Display stops flickering.
- 4. Select and play audio files or music on your BT device.

Notes:

- Having connection problems? Remove ZEB-JUKE BAR 9600 from your device's BT history and ensure it's less than 8 meters away. Then try pairing again. To get the best sound quality, make sure there is a clear line of sight between the connected device and your soundbar.
- If your pairing device or connected device is switched off or manual disconnected, the soundbar will automatically enter pairing mode.
- The music streaming may be interrupted by obstacles between the device and Soundbar, such as wall, metallic casing that covers the device, or other devices nearby that operate in the same frequency.
- If you want to connect your Soundbar with another BT device, press and hold Pair on the remote control to disconnect the currently connected BT device.

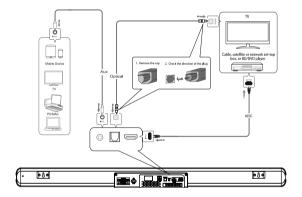

Playing Audio via USB Port

The sound bar automatically switches to USB input mode with the LED display " USB " when a USB flash drive is inserted (this mode isn't selectable on the sound bar or remote control unless a USB flash drive is connected).

- 1. Ensure that your USB flash drive contains MP3 audio files (other file types not supported)
- 2. Connect the USB flash drive to the USB port on the main soundbar (or your own USB extension cable connected to the USB port); music will automatically play with LED display "00:00", when music is played on, the play time will be automatically displayed on the screen.
- 3. Press the VOL +/– buttons to adjust the volume to your desired level.
 - 4. During playback:

Ы	H4/H
Start, pause or resume play.	Skip to the previous or next track.

Using the Soundbar

Audio Input (AUX) Connection

- Use a 3.5mm to 3.5mm audio cable to connect the PC, tablet, smartphone, TV's headphone socket to the AUX socket on the soundbar
- Use a RCA to 3.5mm audio cable to connect the Blue Ray DVD Player / TV's audio output sockets to the AUX socket on the soundbar.
- Then short-press the \bigcirc button on the soundbar or on the remote controller to switch to audio input mode with LED display lighting up RUX.
- In this mode, playback can only be controlled on your connected device.

TV (eARC) Mode

Soundbar supports enhanced Audio Return Channel TV (eARC). If your TV has eARC port, you can hear the TV audio through your Soundbar by using a single eARC cable.

- 1. Use a High Speed cable, connect TV(eARC) on the soundbar to connector on your TV.
- 2. Then short-press \bigcirc button on the soundbar or INPUT button on the remote controller to switch to TV eARC mode. After successfully connected, the LED display will show ERRE. (If TV support ARC, LED display will show ARC)
 - 3. Press the VOL +/- buttons to adjust the

volume to your desired level.

4. If you wish, you can change the audio settings by using the relevant buttons on the remote controller.

Note:

- Your TV must support the CEC and e-ARC function. CEC and TV(eARC) must be set to be on.
- The setting method of CEC and TV(eARC) may differ depending on the TV. For details about TV(eARC) function, please refer to your TV owner's manual.

Optical Mode

Using an optical cable, connect the OPTICAL connector on your Soundbar (Optical digital input) to the OPTICAL OUT connector on the TV or other device. The TV or other device must have an optical digital output. Proceed as follows:

- Connect the optical cable to the OPTICAL jack on the rear of the sounbar.
- Connect the other end of the optical cable to audio output jack on TV or other device.
- Set TV to PCM Stereo or Stereo 2.0.
- Start playing on the TV
- Press the source input button on the soundbar or remote controlto activate the corresponding mode (the OPTICAL mode) to open optical digital input of your soundbar. After successfully connected, the LED display will show OPTI. Operate your audio device directly for playback features.
- Press the VOL +/– buttons to adjust the volume to your desired level.

DOLBY ATMOS

Manufactured under license from Dolby Laboratories. Dolby, Dolby Audio, Dolby Vision, Dolby Atmos and the double-D symbol are trademarks of Dolby Laboratories.

What is DOLBY ATMOS®?

Dolby Atmos® transports you from the ordinary into the extraordinary with breathtaking, moving audio that fills your room and flows above and around you.

Dolby Atmos® gives you amazing experience you have never heard before by overhead sound, and all the richness, clarity, and power of Dolby sound.

Using DOLBY ATMOS®:

DOLBY ATMOS® is only available in HDMI IN and HDMI OUT (ARC) mode. For the details of the connection, please refer to "HDMI Connection".

- 1. To use Dolby Atmos[®] in HDMI 1 /HDMI 2 / HDMI ARC mode, your TV has to support Dolby Atmos[®].
- 2. Make sure that "No Encoding" is selected for bitstream in the digital audio output of the connected external device (e.g. Blu-ray DVD player, TV etc.).
- 3. While entering Dolby Atmos / Dolby Digital Plus format, the soundbar will show DOLBY ATMOS/DOLBY SURROUND.

4. Set the audio output sampling rate to 192 kHz if you can adjust tit. This sound bar supports 4K Pass through and DOLBY VISION. When you play a disc which supports 4K video signal, the signal can be delivered to your TV.

Note:

- The full Dolby Atmos experience is only available when the Soundbar is connected to the source via a HDMI 2.0 cable.
- The Soundbar will still function when connected via other methods (such as a Digital Optical cable) but these are unable to support all of the Dolby features. Given this, our recommendation is to connect via HDMI, in order to ensure full Dolby support.

Features:

- BT v5.3 | TV(eARC) | Optical IN | USB | AUX
- Dolby Atmos
- 16.51cm Subwoofer
- Soundbar with Quad Drivers
- Virtual 5.1
- Wall Mountable
- LED Display
- Remote Control

Troubleshooting

PROBLEM/TROUBLE	POSSIBLE CAUSE	SOLUTION
	Another input source is selected.	Select an appropriate input source.
There is no sound output from sound bar.	The mute function is activated.	Cancel the mute function.
	The volume of sound bar or TV/other device is adjusted too low.	Increase the volume level on sound bar or by remote control or on TV.
	The power cable of the unit is not connected properly.	Make sure that the power cable of the unit is connected to an AC wall outlet securely.
	Input jacks on a playback device are connected.	Connect the input jack on the sound bar and the output jack on the playback device.
	Signals that the sound bar cannot playback when being input.	When sound bar and TV or other devices are connected by an audio cable through TV (ARC) port output, Select the cornect audio input and output. Make sure the digital audio output setting on the playback device to PCM format. Since the output format of our sound bar is PCM, if it is used, the decoding format of TV or other devices will be adjusted to PCM state.
The sound is distorted or echoed.	TV volume is not muted.	If you play audio from TV through the sound bar, make sure that the TV is muted.
The volume decreases when the unit is turned on.	The automatic volume adjustment function is activated. To prevent excessive loudness, the unit automatically controlls its volume within a certain level when the unit is turned on.	Turn up the volume as required.
Noise is heard.	The sound bar is too close to another digital or high-frequency device.	Move those devices away from the sound bar.
	The unit is out of the operating range.	Use the remote control within the operating range.
The unit cannot be operated by using	The batteries are weak.	Replace with new batteries.
the remote control.	The remote control sensor of the sound bar is exposed to direct sunlight or strong lighting.	Adjust the lighting angle or reposition the sound bar. Make sure our product cannot be used in sunlight.
The TV cannot be operated by using the TV's remote control.	The unit is blocking the TV's remote control sensor.	Position the unit so that it does not obstruct the TV's remote control sensor.
	BT function of the device is not activated, not paired or connected correctly.	Restart the sound bar and try pairing again. You have not enabled the BT function of the device; see the user manual of the device on how to enable the function and correctly connected the device. The sound bar is already connected with another BT device. Disconnect the connected device, and then try again.
	BT is not selected as the input source.	Select BT as the input source.
A device cannot	The unit is connected to a different BT device.	Un-pair the BT device that is currently connected and pair with the desired BT device.
connect the sound bar or the unit cannot	The unit is too far away from the BT device.	Move the BT device closer to this unit.
be connected to a BT device.	A device emitting electromagnetic waves (such as a microwave oven, a wireless device and so on) may be placed nearby.	Do not use this unit near devices that emit electromagnetic waves.
	The BT device that you are using may not support the protocol.	Use a BT device that supports the protocol.
	The connection profile registered in the BT device may not be functioning correctly for some reason.	Delete the connection profile in the BT device and then connect the BT device to this unit.
Sound quality of audio play from a connected BT device is poor and connection is not stable.	The BT reception is poor.	Move the device closer to the sound bar, or remove any obstacle between the device and the sound bar.
No sound can be heard or sound breaks (BT mode)	The volume on the BT device may be too low.	Raise the volume on the BT device.
	BT is not selected as the input source.	Select the BT as the input source.
	Playback on the device has not been performed.	Perform playback on the device.
	The sound output on the BT device may not be set to this unit.	Select this unit as the output device on the BT device.
	The connection to the BT device was cut off.	Connect with the BT device one more time.
	The unit may be too far away from the BT device.	Move the BT device near this unit.

PROBLEM/TROUBLE	POSSIBLE CAUSE	SOLUTION
	A device emitting electromagnetic waves (such as a microwave oven, a wireless device and so on) may be placed nearby.	Do not use this unit near device that emit electromagnetic waves.
There is no sound from sound bar - TV (eARC) Mode	Incorrect TVIARC) cable is used causing no signal to be sent to soundbar. Incorrect input mode is selected.	1. Make sure that the user connected TV and sound bat by a 19-core ARC cable to sound bat by a 19-core ARC cable. 2. The soundbar and TV are connected through TV(eARC) core output make sure that the TV is TV(eARC) or TV(eARC) compliant. 3. Set the TV to TV(eARC) compliant. 5. Set the TV to TV(eARC) or TV(eARC) bett the audio output mode of TV to PCM format. (Or refer to you TV user manual).
There is no sound from sound bar (OPTICAL Mode)	OPTICAL cable might be damaged and no signal is received by the soundbar due to a failed connection and incorrect operation mode selected.	1.Replace the OPTICAL cable with a new one to connect. 2. Set your "V audio output to PCM format. (Pls refer to your "V user manual)
There is no sound from sound bar (USB mode)	USB file type is not support 8. Sound bar doesn't switch to USB input mode automatically when USB is inserted.	Make sure that USB flash drive contains MP3 files because other file types are not supported. Switch the input mode once again, then playback again.
