Important Safety Instruction

Thank you for purchasing the **ZEB-JUKE BAR 9700 PRO DOLBY ATMOS** Soundbar. Please read this user manual carefully and keep for future reference.

Warning

Caution:

• To reduce the risk of electric shock, do not dismantle the product and do not expose the apparatus to rain or moisture. No user-serviceable parts inside.

• Refer servicing to qualified personnel only.

The lightning flash within an equilateral triangle is intended to alert you to the presence of uninsulated dangerous voltage within the product's enclosure that may be of sufficient magnitude to constitute an electric shock to a person or persons.

Important! This symbol alerts you to read and observe important warnings and instructions on the unit or in this manual.

Notice:

This appliance is not intended for use by persons (including children) with reduced physical sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

Children should be supervised to ensure that they do not play with the appliance.

1. To prevent possible hearing damage, do not listen at high volume levels for long time

periods or a sudden high volume level.

2. Never use the device unsupervised! Switch off the device whenever you are not using it, even if not using it only for a short while.

3. The appliance is not intended to be operated by means of an external timer or separate remote control system.

4. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

5. Before operating this system, check the voltage of this system to see if it is identical to the voltage of your local power supply.

6. The unit should not be impeded by covering the ventilation opening with items such as newspaper, table-cloths, curtains etc. Make sure that there are at least 20 cm of space above and at least 5 cm of space on each side of the unit.

7. The apparatus must not be exposed to dripping or splashing liquid, no objects filled with liquids such as vases, should be placed on the apparatus.

8. To prevent fire or shock hazard, do not expose this equipment to direct heat, rain, moisture or dust.

9. Do not position this unit near any water sources e.g. taps, bathtubs, washing machines or swimming pools. Ensure that you place the unit on a dry, stable surface. 10. Do not place this unit close to a strong magnetic field.

11. Do not place the unit on a amplifier or receiver.

12. Do not place this unit in a damp area as the moisture will affect the life of electric components.

13. Do not attempt to clean the unit with chemical solvents as this might damage the finish. Wipe with a clean, dry or slightly damp cloth.

14. When removing the power plug from the wall outlet, always pull directly on the plug, never pull on the cord.

15. Depending on the electromagnetic waves used by a television broadcast, if a TV is turned on near this unit while it is also on, lines might appear on the LED TV. Neither this unit nor the TV is malfunctioning. If you see such lines, keep this unit well away from the TV set.

16. The mains plug is used to disconnect the device, the disconnected device should remain readily operable.

Important Safety Instructions

1. Read these instructions. Keep these instructions. Follow all instructions. Heed all warnings.

2. Do not use this apparatus near water.

3. Clean only with dry cloth.

4. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.

5. Do not install near any heat sources such as radiators, heaters, stoves, or other apparatus (including amplifiers) that produce heat.

6. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles or at the point where they exit from the apparatus.

7. Only use attachments/accessories specified by the manufacturer.

8. Unplug this apparatus during lightning storms or when unused for long periods of time.

9. Refer all servicing to qualified service personal. Servicing is required when the apparatus has been damage in any way, for example, when the power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

10. The AC plug is used to disconnect the device, the disconnected device should remain readily operable. In order to disconnect the apparatus from the AC power completely, the AC plug must be removed from the AC outlet completely.

Unpacking and Set Up

• Remove the Sound bar from the carton and remove all packing material from the Sound bar. Save the packing material, if possible, in case the Sound bar ever needs to be serviced or transported.

• The original carton and packing material is the only safe way to pack your Sound bar to protect it from damage in transit.

• Remove any descriptive labels or stickers on the front or top of the cabinet. Do not remove any labels or stickers from the back or bottom of the cabinet.

• Place your Sound bar on a level surface such as a table, desk or shelf, convenient to an AC outlet, out of direct sunlight, and away from sources of excess heat, dirt, dust, moisture, humidity, or vibration.

• Unwind the Line cord connecting the AC adapter and extend it to its full length.

Protect Your Furniture

This model is equipped with non-skid rubber 'feet' to prevent the product from moving when you operate the controls. These 'feet' are made from non-migrating rubber material specially formulated to avoid leaving any marks or stains on your furniture. However certain types of oil based furniture polishes, wood preservatives, or cleaning sprays may cause the rubber 'feet' to soften, and leave marks or a rubber residue on the furniture. To prevent any damage to your furniture we strongly recommend that you purchase small self-adhesive felt pads, available at hardware stores and home improvement center everywhere, and apply these pads to the bottom of the rubber 'feet' before you place the unit.

Important Notes

• Safety and operating instruction manual should be retained for future reference.

• The apparatus should not be exposed to dripping, splashing or placed in a humid atmosphere such as a bathroom.

- Do not install the product in the following areas:
 - Places exposed to direct sunlight or close to radiators.
 - On top of other stereo equipment that radiate too much heat -Blocking ventilation or in a dusty area.
 - Areas where there is constant vibration.
 - Humid or moist places.
 - Do not place near candles or other flames.

• Operate the product only as instructed in this manual.

• Before turning on the power for the first time, make sure the sound bar is plugged to power outlet.

• For safety reasons, do not remove any covers or attempt to gain access to the inside of the product. Refer any servicing to qualified personnel.

• Do not attempt to remove any screws, or open the casing of the unit; there are no user serviceable parts inside. Refer all servicing to qualified service personnel.

Power Source:

This soundbar is designed to operate in AC 220-240V 50/60Hz.

Sound Bar

- 1. LED DISPLAY
- 2. LINE IN (AUX)
- 3. USB
- 4. TV (eARC)
- 5. AC IN
- 6. SR/SLOUT
- 7. SUBOUT
- 8. OPTICAL
- 9. FOR UPDATE
- 10. POWER/STANDBY
- 11. VOL-
- 12. INPUT
- 13. VOL+

Remote Control

1. 0 : Standby mode for power on/off.

2. PAIR : Connect or disconnect to the pairing device. (Press the button more than 2 seconds).

3. RESET : Reset all CH volume levels to default of factory setting and switch EQ to Music mode when press and hold button more than 2 seconds.

4. TR- : Treble volume down.

5. Volume+ : Master volume up

6. ₩ Pre button : Previous program Only work under USB & BT Mode).

7. Volume- : Master volume down.

8. SW : Subwoofer Channel volume down.

9. MUSIC : Select the Music EQ effect.

10. NEWS : Select the News EQ effect.

11.CEN- : Center Channel volume down.

12. SURR- : Surround Channel volume down.

13. MUTE : Mute mode.

14. INPUT : Input mode (AUX/USB/eARC/OPT/BT).

15. DISPLAY : LED display on/off, Only work under power on.

16. TR+ : Treble volume up.

17. ➡ Next button : Next program. (Only work under USB and BT mode).

18. SW+ : Subwoofer Channel volume up.

19. MOVIE : Select the Movie EQ effect.

20. SPORT : Select the Sport EQ effect.

21. CEN+ : Center Channel volume up.

22. SURR+ : Surround Channel volume up.

23. MI : Play/Pause Only work under USB and BT mode).

Positioning the Sound Bar

Place on a flat Surface

Place the sound bar horizontally on a flat surface such as a TV unit or shelves and align it centrally with the TV screen. Allow some space between the speaker and the wall. Don't place inside a cabinet or an a walled shelf. Follow this guidance for best sound output and good airflow around the sound bar.

Mount on the wall

WARNING : If you don't feel confident to correctly and securely wall-mount the sound bar, Seek the assistance of an experienced person of professional.

Install the speaker on a vertical, fast, reinforced area of wall. For plaster walls, it is recommended to screw into wall studs for greater security. For optimum performance, allow at least 25mm/1"/distance between the sound bar and the TV.

Follow below steps to mount the sound bar on the wall

1. Open 4 holes in the wall referring to iron bracket for wall mounting, the spacing of the holes in the wall is corresponding to the distance between sound bar pads.

2. Fix the plastic anchor in the 4 holes of the wall mounting bracket.

3. Fix the screws on the plastic anchor and tighten the screws to ensure that the wall mounting bracket will not shake.

4. After fastening the screws, Put the sound bar pads into the extension of the wall mounting bracket.

Follow below steps to mount the surround speaker on the wall

1. Open 4 holes on the wall. For the distance between the 2 holes, please refer to the soundbar bracket wall mounting.

2. Fasten the plastic anchors in the 4 holes of the wall mount bracket.

3. Then attach the provided screws to the plastic anchors and tighten the screws to ensure that the wall mount bracket does not shaking.

4. Place the surround speakers on bracket with the corresponding holes at the bottom, then fix the provided screws in the bottom of the bracket and the holes of the surround speakers, then tighten the screws.

OPERATE INSTRUCTIONS

Setting the Soundbar

1. Plug in the power cord and the display will light up (Standby mode)

2. Switch on the sound bar by pressing "STANDBY" button on sound bar or on remote controller. After switching on, the default input mode will appear on display.

3. Input modes can be changed by pressing the "INPUT" button on sound bar or on remote controller.

4. Below are input mode names appearing in the soundbar display:

- ь Bluetooth Pairing mode
- RU AUX mode
- OPL Optical mode
- RRC TV ARC mode
- ERRE TV eARC mode

Note:

1. The port of TV (eARC) support Video & Audio

2. Maximum supported audio content is Dolby Atmos, Dolby Digital, Dolby Digital Plus, Dolby TrueHD, Dolby Surround.

3. Under TV (eARC) input source, if you didn't connect soundbar to your TV, ARC will be displayed on soundbar; If soundbar connected to your TV (ARC) connector, ARC will be displayed on soundbar; If soundbar connected to your TV (eARC) connector, eARC will be displayed on soundbar.

Powering On/Off

5. Plug the power cord of sound bar into a wall outlet, it will automatically enter standby mode.

6. Short-press the "**STANDBY**" button on sound bar or on remote controller to turn on the sound bar.

7. To turn off, press and hold the "**STANDBY**" button for 2 seconds, then unplug from wall outlet.

Playing Audio via BT Connection

1 Turn on the sound bar and then short-press the "**INPUT**" button on sound bar or remote controller to switch it to BT mode and LED display on the sound bar will flicker in the BT pairing mode.

2. Activate the pairing function on your phone or other compatible device and select "**ZEB-JUKE BAR 9700 PRO**" by BT connection.

3. When successfully paired, you will hear a tone and LED display will turn on "bt" and stop flickering. Then music that you selected can be played on the sound bar.

4. The remote controller includes BT mode playback controls.

Notes:

• If your pairing device switched off or manual disconnected, the sound bar will automatically enter pairing mode.

• If the connected device is switched off or manual disconnected, the sound bar will automatically enter pairing successfully connected device will be re-established once you re-enter wireless range (10 meters). to connect to other devices, repeat the above pairing steps

• There is no automatic shutdown in pairing mode. The sound bar will remain in pairing mode even if no device is paired, so switch off if not in use

Playing Audio via USB Port

The sound bar automatically switches to USB input mode with the LED display "USb" when a USB flash drive is inserted (this mode isn't selectable on the sound bar or remote control unless a USB flash drive is connected).

1. Ensure that your USB flash drive contains MP3 audio files (other file types not supported) 2. Connect the USB flash drive to the USB port on the sound bar (or your own USB extension cable connected to the USB port); music will automatically play

3. The remote control includes USB input mode playback controls

Audio input (AUX) Connection

1. Firstly connect the soundbar to your PC, laptop, smart-phone, TV, or other audio devices by using an AUX cable provided. Make sure that these devices have both AUX IN and AUX OUT terminals.

2. Then press the INPUT button on remote control or soundbar to switch the soundbar to Aux mode, once the soundbar is connected in Aux mode, the screen will display "RU" and the music on your connected device will play. Playback can only be controlled on your connected device.

Note: For some computer, you may need to access the audio control panel to manually set the sound bar as above picture.

TV (eARC) Mode

The Soundbar supports Enhanced Audio Return Channel (eARC). If your TV is eARC compliant, you can hear the TV audio through your Sound bar by using a single eARC cable.

1. Use a High Speed cable, connect TV (eARC) on the soundbar to eARC connector on your TV.

2. Then short-press 🕤 button on the sound bar or INPUT button on the remote controller to switch to TV (eARC) mode. After successfully connected, the LED display will show ERRE. (If TV support ARC, LED display will show RRC)

3. Press the **VOL +/–** buttons to adjust the volume to your desired level.

4. If you wish, you can change the audio settings by using the relevant buttons on the remote controller.

Note:

• Your TV must support the HDMI-CEC and e-ARC function. HDMI-CEC and e-ARC must be set to be on.

• The setting method of HDMI-CEC and e-ARC may differ depending on the TV. For details about e-ARC function, please refer to your TV owner's manual.

Optical Mode

• Remove the cap of optical cable (keep the cap for the future use); check the direction of the plug. Connect the soundbar and TV with the optical cable.

• Use this mode to play music from a TV with optical digital output on the sound bar. In TV sound settings, select the soundbar optical connection (output for audio). When the optical cable is connected, the TV audio output is set to Dolby or Auto mode.

• The TV must have an optical digital output. Use the optical cable to make the connection as follows:

1. Connect the optical cable to the optical digital output of your TV.

2. Connect the optical cable to the optical digital input of your soundbar.

3. Switch on the TV set and the soundbar. Set the connected TV to "Dolby or Auto mode".

4. Start playing on the TV.

5. Press "INPUT" button on the remote control or on the soundbar to select DPt - OPTICAL mode.

6. Use the volume buttons to adjust the volume to your requirements.

7. You can also change the audio settings by using the relevant buttons on the remote control.

Note:

 When connecting a device such as a TV/Set-top box/ DVD/ game console with optical cable, set the audio output mode of the device to Dolby or Auto mode (digital optical output).
 Do not bend the optical cable, otherwise the cable inside will be damaged.

DOLBY ATMOS[®]

Manufactured under license from Dolby Laboratories. Dolby, Dolby Audio, Dolby Vision, Dolby Atmos and the double -D symbol are trademarks of Dolby Laboratories.

What is DOLBY ATMOS[®]?

Dolby Atmos[®] transports you from the ordinary into the extraordinary with breathtaking, moving audio that fills your room and flows above and around you.

Dolby Atmos[®] gives you amazing experience you have never heard before by overhead sound, and all the richness, clarity, and power of Dolby sound.

Using DOLBY ATMOS[®]:

DOLBY ATMOS[®] is only available in HDMI IN and HDMI OUT (ARC) mode. For the details of the connection, please refer to "HDMI Connection".

1. To use Dolby Atmos[®] in HDMI 1 /HDMI 2 / HDMI ARC mode, your TV has to support Dolby Atmos[®].

2. Make sure that "No Encoding" is selected for bitstream in the digital audio output of the connected external device (e.g. Blu-ray DVD player, TV etc.).

3. While entering Dolby Atmos / Dolby Digital Plus format, the soundbar will show DOLBY ATMOS / DOLBY SURROUND.

4. Set the audio output sampling rate to 192 kHz if you can adjust tit. This sound bar supports 4K Pass through and DOLBY VISION. When you play a disc which supports 4K video signal, the signal can be delivered to your TV.

Note:

The full Dolby Atmos experience is only available when the Soundbar is connected to the source via a HDMI 2.0 cable.
The Soundbar will still function when connected via other methods (such as a Digital Optical cable) but these are unable to support all of the Dolby features. Given this, our recommendation is to connect via HDMI, in order to ensure full Dolby support.

Select Equalizer (EQ) Effect

Select predefined sound modes to suit your video or music

Press the EQ button on the remote control to select your desired preset equalizer effects:

Music mode	Enhances the treble and adds greater depth to the music.
Movie mode	Intensifies the bass and enhances the clarity of dialogue.
News mode	Enhances the clarity of voices. Suitable for watching TV shows and news.
3D mode	Enhances background music and full range to be sports effect.

Adjust the Volume

Press Vol+ / Vol- (Volume) to increase or decrease a volume level.

- To mute sound, press Mute.
- To restore the sound, press Mute again or press Vol+ / Vol- (Volume).

Adjust the Bass/Treble Level

Adjust the Bass Level

• Press the **BASS+ / BASS-** button on the remote control to activate bass level setting.

The display will show **b** +5 / **b** -5.

Adjust the Treble Level

• Press the **TREB+ / TREB-** button on the remote control to activate treble level setting.

The display will show **T+5 / T-5**.

Features:

• Multi Connectivity (BT v5.3 | TV (eARC) | Optical IN | USB | AUX)

- 16.51cm Subwoofer
- Remote Control
- Wall Mountable
- LED Display
- Dolby ATMOS
- Volume/Media Control
- 5.1 CH Surround Sound

Troubleshooting

PROBLEM/TROUBLE	POSSIBLE CAUSE	SOLUTION
	Another input source is selected.	Select an appropriate input source.
There is no sound output from sound bar.	The mute function is activated.	Cancel the mute function.
	The volume of sound bar or TWother device is adjusted too low.	Increase the volume level on sound bar or by remote control or on TV.
	The power cable of the unit is not connected properly.	Make sure that the power cable of the unit is connected to an AC wall outlet securely.
	Input jacks on a playback device are connected.	Connect the input jack on the sound bar and the output jack on the playback device.
	Signals that the sound bar cannot playback when being input.	When sound bar and TV or other devices are connected by an audio cable through TV (ARC) port output, Select the cornect audio input and output. Make sure the digital audio output setting on the playback device to PCM format, since the output format of our sound bar is PCM, if it is used, the decoding format of TV or other devices will be adjusted to PCM state.
The sound is distorted or echoed.	TV volume is not muted.	If you play audio from TV through the sound bar, make sure that the TV is muted.
The volume decreases when the unit is turned on.	The automatic volume adjustment function is activated. To prevent excessive loudness, the unit automatically controlls its volume within a certain level when the unit is turned on.	Turn up the volume as required.
Noise is heard.	The sound bar is too close to another digital or high-frequency device.	Move those devices away from the sound bar.
	The unit is out of the operating range.	Use the remote control within the operating range.
The unit cannot be operated by using	The batteries are weak.	Replace with new batteries.
the remote control.	The remote control sensor of the sound bar is exposed to direct sunlight or strong lighting.	Adjust the lighting angle or reposition the sound bar. Make sure our product cannot be used in sunlight.
The TV cannot be operated by using the TV's remote control.	The unit is blocking the TV's remote control sensor.	Position the unit so that it does not obstruct the TV's remote control sensor.
	BT function of the device is not activated, not paired or connected correctly.	Restart the sound bar and try pairing again. You have not enabled the BT function of the device; see the user manual of the device on how to enable the function and correctly connected the device. The sound bar is already connected with another BT device. Disconnect the connected device, and then try again.
	BT is not selected as the input source.	Select BT as the input source.
A device cannot	The unit is connected to a different BT device.	Un-pair the BT device that is currently connected and pair with the desired BT device.
connect the sound bar or the unit cannot	The unit is too far away from the BT device.	Move the BT device closer to this unit.
ber of rectary connected to a BT device.	A device emitting electromagnetic waves (such as a microwave oven, a wireless device and so on) may be placed nearby.	Do not use this unit near devices that emit electromagnetic waves.
	The BT device that you are using may not support the protocol.	Use a BT device that supports the protocol.
	The connection profile registered in the BT device may not be functioning correctly for some reason.	Delete the connection profile in the BT device and then connect the BT device to this unit,
Sound quality of audio play from a connected BT device is poor and connection is not stable.	The BT reception is poor.	Move the device closer to the sound bar, or remove any obstacle between the device and the sound bar.
	The volume on the BT device may be too low.	Raise the volume on the BT device.
	BT is not selected as the input source.	Select the BT as the input source.
No sound can be heard	Playback on the device has not been performed.	Perform playback on the device.
(BT mode)	The sound output on the BT device may not be set to this unit.	Select this unit as the output device on the BT device.
	The connection to the BT device was cut off.	Connect with the BT device one more time.
	The unit may be too far away from the BT device.	Move the BT device near this unit.

PROBLEM/TROUBLE	POSSIBLE CAUSE	SOLUTION
	A device emitting electromagnetic waves (such as a microwave oven, a wireless device and so on) may be placed nearby.	Do not use this unit near device that emit electromagnetic waves.
There is no sound from sound bar - TV (eARC) Mode	Incorrect TV (eARC) cable is used causing no signal to be sent to soundbar. Incorrect input mode is selected.	Make sure that the user connected TV and sound bat by a Jorcen ARC called 2. The sound bar and TV are connected through TV (eARC) or or touptic make sure that the TV is TV (eARC) or TV (eARC) or TV ARC (ECC). Set the TV to TV (eARC) or TV ARC (ECC). Set the audio output mode of TV to PCM format. (or refer to your TV user manual)
There is no sound from sound bar (OPTICAL Mode)	OPTICAL cable might be damaged and no signal is received by the soundbar due to a failed connection and incorrect operation mode selected.	1.Replace the OPTICAL cable with a new one to connect. 2. Set your TV audio output to PCM format. (Pls refer to your TV user manual)
There is no sound from sound bar (USB mode)	USB file type is not support 8. Sound bar doesn't switch to USB input mode automatically when USB is inserted.	Make sure that USB flash drive contains MP3 files because other file types are not supported. Switch the input mode once again, then playback again.

ISO 9001:2015 Certified Company www.zebronics.com
