

Desktop Monitor Stand

ZEB **DMS 500**

User Manual

www.zebronics.com

Dear Customer,

Thank you for purchasing ZEB-DMS500 Desktop Monitor Stand. Please read the user manual carefully before usage & save it for future reference.

Note :

- *Read the entire instruction manual before you start installation and assembly.*

Caution :

- Use with products heavier than the rated weights indicated may result in instability causing possible injury.
- Mounts must be attached as specified in assembly instructions. Improper installation may result in damage or serious personal injury.
- Safety gear and proper tools must be used. This product should only be installed by professionals.
- Make sure that the supporting surface will safely support the combined weight of the equipment and all attached hardware and components.
- Use the mounting screws provided and DO NOT OVER TIGHTEN mounting screws.
- This product contains small items that could be a choking hazard if swallowed. Keep these items away from children.

- This product is intended for indoor use only. Using this product outdoors could lead to product failure and personal injury.

Important :

Ensure that you have received all parts according to the component checklist prior to installation.

Maintenance :

Check that the bracket is secure and safe to use at regular intervals (at least every three months).

Features :

- Ideal for 43.1cm (17) - 81.2cm (32) Monitor
- 75 x 75 / 100 x 100 VESA Mount
- Adjustable Gas Spring Stand
- C-Clamp / Grommet Installation
- 360° Rotation , Swivel $\pm 90^\circ$ & Tilting -45° to $+90^\circ$
- Max. Load Weight upto 8kg
- Cable Management
- Single Monitor Desk Mount
- Ergonomic Working Positions
- Arm Extendable up to 45cm
- Rust-Proof

Specifications :

Adjustable Heights	: 150-435mm
Arm Extension Distance	: Up to 450mm
Arm Mechanism	: Gas Spring Arm
Cable routing	: Channel
VESA	: 75 x 75 / 100 x 100
Suitable Monitor Sizes	: 43.18cm - 81.2cm
Max Load Weight	: 8kg
Rotation	: 360°
Swivel	: ±90°
Tilting	: -45° to + 90°
Product Dimensions (W x D x H)	: 46 x 8 x 46.5 cm
Net Weight	: 2 kg

Package Contents:

Desktop Monitor Stand	: 1 U
Mounting Kit	: 1 U
QR Code Guide	: 1 U

Mounting & Assembling Components :

A (×1)

B (×1)

C (×1)

D (×1)

E (×1)

E1 (×1)

FX1

G (×2)

H (×1)

L (×1)
4mm Allen Key

M (×1)
5mm Allen Key

N (×1)
6mm Allen Key

M-A (×4) M×8

M-B (×4) M×12

M-C (×4) M×30

M-D (×4)

M-E (×4)

Instructions for Assembling :

1.C-Clamp Installation :

- Take the C-part & E-part Monitor stand, insert the E-part of the Screws by holding both the parts together and tighten the screws with the help of M-part (Allen Key) by twisting it alongside clockwise direction.

- After that keep it in a Table Desk of thickness 10-65 mm and Tighten the Mounting by rotating the D-part of the screw in clockwise direction until it gets locked tightly.

2. Grommet Installation

Pass the threaded bolt through the desk grommet hole and tighten the mounting plate and hand knob underneath until secure.

- Take the C part from that, take the E1 clamp from C screw along with that insert the F-part inside the E1 clamp.
- Now insert the F-part screw into the E1 part and tighten the screw slightly.

3. Arms Installation:

- After you choose which installation you need then we have to install the Arms of the Desktop Monitor Stand.

- From the above image you can see that insert the B part of the Arm in which there will be a small mounted screw (M-B part). Once inserted properly, take your 4mm Allen Key (L part) and rotate it in clockwise direction.

- When you complete installing the B part of the Arm then next you have to insert the A part of the Arm and take the small mounted screw (M-A part) insert it in the screw hole. Once inserted properly, take your 4mm Allen key (L part) and rotate it in clockwise direction.
- When you insert it properly you will be seeing the installed Desktop Monitor Stand like the below image shown.

4.VESA Mount on the monitor : With WA Screws Installation :

Slide the VESA mount plate (**D**) onto the monitor bracket until it locks in place. Tighten the locking screw (**M-A**) with the Allen wrench (**M**) and ensure the plate is securely fastened before installing the monitor.

Monitor Mounting.

Secure the VESA plates to the back of the monitors using the provided screws. Then, slide each monitor onto the arm bracket until it locks into place

5.After Monitor Installation or VESA Mount Installation :

- If you want to navigate your monitor in the vertical directions you have to follow the below steps :

Tilt Adjustment

- Use the Allen key to adjust the screw on the arm. Turn counterclockwise ("+" direction) to increase the gas spring tension.

- Use the Allen key to adjust the screw on the arm. Turn clockwise ("-") direction) to reduce the gas spring tension.

6. Cable Management Installation:

- From the below diagram just squeeze the buckle inward into the arms as shown in the below image.
